AIP | The Journal of Chemical Physics

**Today's Most Highly Cited Journal in Atomic,
Molecular and Chemical Physics**

jcp.aip.org

The Journal of Chemical Physics
**Discover a High-Quality Mix of Research that
No Other Chemical Physics Journal Can Match**

The Journal of Chemical Physics (JCP) is the leading source for research at the interface of physics and chemistry. JCP publishes innovative results in cutting-edge, as well as traditional areas of chemical physics. In an ongoing effort to serve the needs of the chemical physics community, JCP continues to expand its scope to include ground-breaking, fundamental research in areas such as biological systems, polymers, materials, surfaces/interfaces, information theory and more.

Not only is JCP today's most influential voice in the field, it has been the place to turn to for more than 75 years, with a breadth of coverage that represents the fundamentals, both new and old that form the foundation of the field.

2008 Journal Citation Data from Thomson Reuters*

Impact Factor: 3.148
Immediacy Index: 0.737
Cited Half-Life: >10.0
EigenFactor Score: 0.32713
Article Influence Score: 1.077

*Data from the 2008 Science Edition of Thomson Reuters' Journal Citation Reports®.

Biophysical chemistry
Quantum chemistry
Polymers and biopolymers
Classical and quantum dynamics
Thermodynamics and statistical mechanics

Molecular dynamics simulations

Spectroscopy

Nuclear magnetic resonance

Submit Your Research at jcp.peervx-press.org and Take Advantage of:

- Timely review and prompt publication
- Broad dissemination via worldwide online and print distribution networks
- High visibility for your work
 - Research Highlights—chosen by the editors and made freely available to spotlight some of the most interesting papers
 - Top 20 most downloaded—featuring the most popular papers that month online

Get Easy Access to Valuable Online Features Directly From the Article Abstract Page

- **New!** Related article browser
- **New!** Article outline and figure thumbnail browser
- Add Scitation to the search engines in your web browser
- View and link to citing articles
- **New!** Share articles on delicious, Twitter, and other social networking sites
- Access citation data, including BibTex, COinS, EndNote®, Medline, Plain Text, and RefWorks®
- Link directly to supplementary and multimedia material

Chemical kinetics

Surfaces, interfaces, and materials

Computational chemistry

Gain Increased Visibility through Inclusion in JCP: BioChemical Physics

JCP: BCP is an online-only, topical journal, comprised of articles from *The Journal of Chemical Physics* that focus on theoretical and experimental research in areas such as molecular biophysics, organic compounds, biochemistry, and much more. Authors who contribute biologically based papers to JCP achieve even greater visibility through publication in JCP: BCP. Subscribers to JCP automatically have access to this online publication.

New to JCP in 2009!

JCP Articles Now Include Multimedia

Video clips or animated movies can be included in the online versions of papers. Information for authors on incorporating multimedia material into their papers is available in the "Information for Contributors" posted on the journal's website at jcp.aip.org/jcp/submit.jsp.

Non-Latin Character Sets Available for Author Names

Chinese, Japanese, and Korean authors may choose to have their names published in their own language alongside the English versions of their names in the author list of their publications. Specific guidelines for manuscript preparation are given at aip.org/pubservs/cjk_instructions.html.

Expert Editorial Guidance

In June 2008, Marsha I. Lester was appointed Editor of **The Journal of Chemical Physics**. Dr. Lester is currently the Edmund J. and Louise W. Kahn Professor in the Natural Sciences. In her position as editor of JCP, she is ably assisted by a distinguished group of Associate Editors and Editorial Board members who play a crucial role in the peer-review process and in guiding editorial policy.
